

Medical Personnel Placement Services

SiennaMed is a Northern California based company, specializing in the needs of California Hospitals, Occupational Clinics, and Medical Facilities.

Unlike national staffing firms with corporate offices out of state, we're locally based with an emphasis on customer care as well as ongoing training and support for the medical professionals we place. And because we're focused on customer service and locale, we are able to deliver and maintain a superior level of service and responsiveness.

SiennaMed searches nationally for talent, but places locally, bringing you the best medical professionals our nation has to offer. We require the candidate to initiate contact with SiennaMed first, expressing interest in a specific location or facility. In this manner, we are able to ensure that you receive only staff with a sincere desire to be a part of your medical team. Our selection and screening process includes a thorough background check of each candidate. We provide all required expenses, insurance, and payroll taxes for both our locally based and traveling medical staff. There are no unexpected fees to our clients or the medical professionals we place with them.

SiennaMed is the medical division of Sienna Staffing, our parent company who has built a reputation for satisfied staff and satisfied clients by providing the same level of immediacy and concern for the needs of the organizations we serve, and the candidates we place. We have discovered a formula for success that keeps our clients coming back.

Our services include temporary, long-term temporary and permanent placement of the following:

- **Nurses (RNs, LVNs and CNAs)**
- **Medical Doctors (various specialties)**
- **Nurse Case Managers and Directors of Nursing**
- **Medical Directors**
- **Nurse Practitioners**
- **Physical Therapists**
- **Occupational Medicine Physicians**
- **Medical Case Managers (including donor transplant coordinators)**
- **Expert Witness and Peer Review Services**

Contact us today for your medical staffing needs and experience the SiennaMed difference.
